Cloud SI – Multi-Cloud Leader

Nextlink Technology is a Taiwan's leading multi-cloud integration provider, delivering professional, global cloud solutions and managed services. We tailor multi-cloud architectures and build comprehensive ecosystems to help enterprises maximize operational synergy.

Core Business & Solutions

Multi-Cloud Integration

- Architecture assessment
- Migration services
- Client enablement
- ISV/digital application integration

Professional Services

- Managed Service Provider(MSP)
- Operations optimization
- Data security
- AI/ data applications solutions

Application R&D

- AI Cloud Optimization Management (AICOM®)
- LLM Enhanced Multi-Model Agent (LEMMA®)
- AI industry application solutions

Market Leadership & Competitive Edge

- A leading brand in multi-cloud integration
- 20 years of track record in customer success and industry insights
- 100 technical experts holding 580 professional certifications/ specializations (as of 2025/12/31)
- World-class technical capabilities in cloud applications
 - ◆ ISO27017 for Cloud Service Information Security
 - ◆ First in Asia to become a Palo Alto Networks designated security partner
 - ◆ First in Taiwan to achieve the Google Cloud Security Specialization
 - ◆ First in Taiwan to earn the AWS Government Competency

Key Growth Strategies

- Drive organic growth via customer base expansion
- Enhance margins profile through high-value managed services
- Unlock value in 3+1 key sectors via AI-driven industry solutions
- Accelerate regional expansion across APAC
- Sustain strategic Investment in top talent and R&D

Cloud AI Application & Industry Solutions

AI Chatbot Agent
Automated customer support

AI Knowledge Management Agent
Internal knowledge management

Next-Gen Intelligent Cloud Management Platform

- ◆ **Security & Compliance**
Role-based access control (RBAC), clear accountability, compliance verification
- ◆ **ServiceOps Excellence**
Standardized process, human + AI collaboration, business continuity
- ◆ **FinOps Governance**
Single source of truth, decision support, forward-looking metrics
- ◆ **CloudOps Optimization**
Cloud asset binding, maximizing efficiency, data-driven ROI

Enterprise AI Knowledge Agent Solution

- ◆ **Enterprise-Grade Data Privacy**
Mitigate deployment risks
- ◆ **Accelerate Enterprise AI Adoption**
Lower technical entry barriers
- ◆ **High Cost-Efficiency**
Eliminate overhead and hidden costs
- ◆ **Versatile Application Scenarios**
Enabling end-to-end AI integration

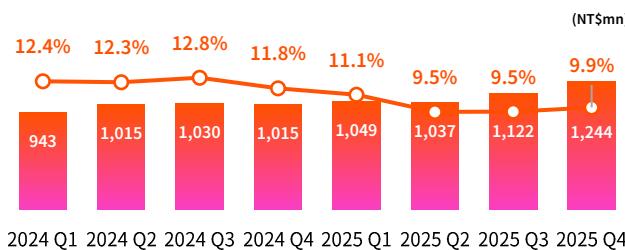

AI Industry Solutions

- ◆ **New Retail Data & AI Solution**
Optimize customer journeys to unlock substantial growth opportunities.
- ◆ **Data & AI Solution for F&B**
Data-driven industry transformation to elevating the total customer experience.
- ◆ **Commercial District Analysis**
Unlock potential and seize first-mover advantages via precision decision-making.
- ◆ **Public Opinion Analysis**
Rapid insights into online sentiment to empower precise, actionable strategies.
- ◆ **Process & System Automation**
Rapid workflow deployment to accelerating digital transformation.
- ◆ **Automated Text and Image Generation**
Accelerate creative, personalized content production to drive business value.

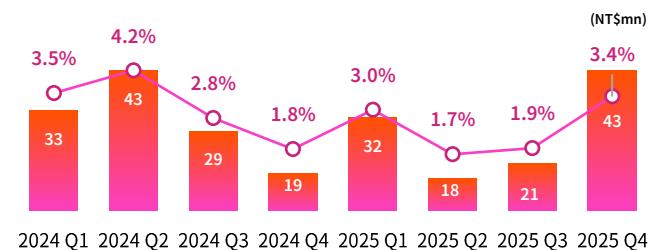

Financial & Operational Highlights

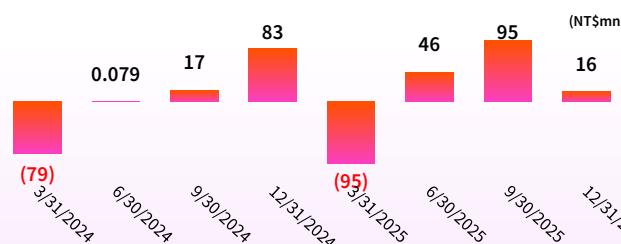

Track Record of Revenue & Gross Profit Growth

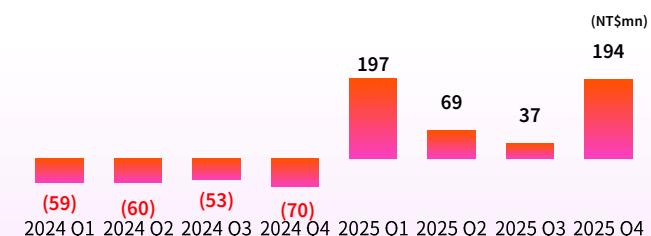

Driving Long-Term Sustainable Profitability⁽¹⁾

Robust Balance Sheet & Working Capital Position⁽²⁾

Consistent Free Cash Flow Generation⁽³⁾

(1) Net profit and net profit margin
 Core net working capital = Account receivable + Inventories + Prepaid expenses - Contract liabilities (current) - Accounts payable
 (3) Accumulated free cash flow = Accumulated cash flow from operations - Capital expenditure (PPE)
